

The Mustang MV-STAT4B is designed to be a sleek, sturdy, and secure solution for wall mounting your flat panel display. It provides lateral shift of the screen to compensate for off center wall studs as well as the added versatility of a three position vertical adjustment. The STAT4B is also a low profile mount, allowing you the beauty of your flat screen hanging on your wall without having the mount itself becoming a focal point. The simple design and VESA compatible mounting brackets allow for installation to be performed in minutes and will fit any display that conforms to industry standards.

DIMENSIONS:
34.84" x 10.83" x 1.97"
