

*KC 1000 Keyboard with removeable cover*

CHERRY's EZCLEAN™ KC 1000 keyboard features a smooth silicone cover that's easy to clean with most standard medical cleansers and disinfectant wipes, while providing an exceptional tactile feel. Traditional keyboards, and even some sealed, anti-microbial keyboards are vulnerable to germs and bacteria, especially in hard to clean areas. The EZCLEAN™ KC 1000 keyboard...just type and wipe.

Applications include mobile medical carts, patient rooms, nurse stations, triage stations, labs and high traffic areas with multiple users.

## Key Benefits

- Whisper quiet keys
- Designed for continuous usage - over 10 million confirmations per key
- High level of reliability and precise tactile feedback
- Easy to clean surface that stands up to common cleaning solutions [see cleaning material listing below]
- Complete functions of a standard keyboard
- Can be used with the standard drivers of the operating system
- Ideal for medical cart and mobile applications
