

VERGE355

BY ENS

World leader in securing payment devices.

The needs of consumers continue to evolve and retailers need to provide an easy journey to purchase their product or service. mPOS devices are being used to help meet these fast-paced needs of customers. The Verge 355 by ENS pairs with the Verifone e355 mobile payment device to provide optional security and mobility benefits along with best-in-class quality to help grow your sales.

Verge 355 provides retailers:

INTEGRATED MOUNTING STATION

The Verge 355 mounting solution provides charging integration while the Verifone e355 payment device is installed on ENS stand.

EASY INSTALLATION

You can easily mount the Verge 355 on the ENS square base making installation of your new stand both quick and easy - saving you time and money.

SECURITY AND MOBILITY OPTIONS

The quick release function allows retailers to easily remove the device from the stand to maximize their mPOS applications. Additionally, retailers have the option of a security screw to lock down the device.

EASY TO USE

With 60° forward and 30° backward tilt movements, you can continue to use all the features built into the Verifone e355 payment device, including the 2D scanner, when mounting your device to the Verge 355.

HELPS MEET COMPLIANCE STANDARDS

The Verge 355 was designed with EMV smart card clearance and quick release function to help you meet compliance standards.

MADE IN THE USA

ENS products are manufactured in the USA and assembled at the company headquarters in Minneapolis, MN.

LET ENS
SOLVE IT
WITH YOU
