

# Epson Solutions for Financial Institutions

“More than  
85% of the top  
U.S. financial  
institutions rely  
on Epson.”

# Count on Epson to Deliver More.

---

Epson has an unequalled reputation for advanced technology, quality and value that makes it the brand that over 85% of the top financial institutions rely on. For over 30 years, Epson's advanced

technology solutions have been at work in millions of point-of-service systems around the world. Solutions

that increase productivity, improve customer satisfaction and reduce costs. From receipt printing and validation to image payment and mobile solutions, we've leveraged our expertise in printing and imaging to deliver the value-added solutions that financial institutions are looking for.

# No one offers more printing options.

Our family of teller printers has everything you need to print receipts, checks, forms, slips and validations, plus the industry's highest MICR accuracy and best-in-class reliability.

## TM-H6000IV with Validation | Multifunction Printer

The TM-H6000IV offers high-speed receipt printing, drop-in validation, 99.9% MICR accuracy, superior slip handling and the highest reliability in its class.

- Industry-leading MICR with 99.9% accuracy
- High-speed printing up to 12 inches/s (300mm/s)
- Paper-saving feature reduces paper usage by up to 30%
- Fastest check processing speed in its class
- Drop-in validation for checks, deposit slips, cashier checks

## TM-T88V | Thermal Receipt Printer

The TM-T88V is the fastest, most reliable TM-T88 printer ever, with 16 levels of grayscale to highlight your marketing messages.

- Fast printing speed up to 12 inches/s (300mm/s)
- Paper-saving feature reduces paper usage by up to 30%
- Best-in-class reliability with MCBF of 70 million lines
- Dual interfaces including built-in USB
- Industry-leading four-year limited warranty

## TM-T70II | Thermal Receipt Printer

The space-saving TM-T70II printer is designed to fit under busy teller counters with all-front access to simplify maintenance and ease of use.

- Small, space-saving footprint
- Front-facing controls, paper loading and receipt dispensing
- Paper-saving feature reduces paper usage by up to 30%
- Printing speeds up to 10 inches/s (250mm/s)
- High reliability with MCBF of 65 million lines

## TM-T20II | Thermal Receipt Printer

The cost-effective TM-T20II thermal printer is designed to provide basic functionality with high reliability and ease-of-use features.

- Ideal for lower-volume transactions
- Paper-saving feature reduces paper usage by up to 30%
- Printing speeds up to 8 inches/s (200mm/s)
- High reliability with MCBF of 60 million lines
- Integrated power supply

## TM-U675 | Compact Multifunction Printer

---

Ideal for teller stations, the highly-reliable, compact TM-U675 prints slips and receipts, validates and is easy to use and maintain.

- High-speed MICR reading and check printing
- Highest reliability rating in its class
- Easy drop-in paper loading and one-touch removal
- Wider throat for smooth, drop-in validation
- Superior slip handling for ease of use

## TM-U375 | Multifunction Printer with Validation

---

The TM-U375 offers receipt, validation and slip printing all in one space-saving, easy-to-use multifunction printer.

- Optimized features and small footprint
- High speed printing of receipts plus 1 copy
- Handles 16 lines of validation printing
- Offers 58 lines of slip printing plus 2 copies
- Supported by all major teller software

## TM-U325 | Single-station Impact Printer with Validation

---

The cost-effective TM-U325 printer offers highly-reliable validation and receipt printing in a small space-saving footprint.

- Receipt and validation printing in a compact footprint
- Quiet, 6.4 lps receipt printing speed
- Handles up to 9 lines of validation
- User-friendly features including drop-in paper loading
- High reliability with MCBF of 49 million lines

## TM-U295 | World's Smallest Slip Printer

---

The TM-U295 slip printer offers multiple print sizes, an easy-to-operate touch panel and an automatic paper eject function.

- Ultra-small footprint
- Easy-to-use touch panel and automatic paper ejection
- Four print sizes, four printing directions
- "Page mode" allows printing anywhere on document
- Features Auto Status Feedback alerts

# Epson scanners—all the features you need.

From teller capture to desktop check scanners for branch and RDC applications to our family of multifunction teller devices, no one can match Epson's quality, reliability and performance.

## CaptureOne™ | Desktop Scanner

Ideal for branch back counter and RDC applications, Epson's reliable CaptureOne scanner is available in 30, 60, 90 DPM and single-feed models.

- High MICR accuracy
- High-quality image scanner
- Electronic endorsement, built-in franker
- 100-check document feeder (batch models)
- Industry-leading two-year limited warranty

## TM-S2000 | Multifunction Teller Device

Epson's TM-S2000 supports check processing, cashier check printing and ID scanning in a single, compact device.

- Multiple functions in small footprint
- Highest MICR accuracy in its class
- Fastest desktop scanning speed up to 200 dpm
- Up to 16 lines of endorsement printing
- Industry-leading two-year limited warranty

## TM-S9000 | Multifunction Teller Device

Epson's TM-S9000 supports check processing, receipt and cashier check printing and ID scanning in a single, fully-integrated device.

- More functions than any device in its class
- Integrated TM-T88V thermal receipt printer
- Highest MICR accuracy in its class
- Fastest desktop scanning speed up to 200 dpm
- Paper-saving feature reduces paper usage by up to 30%
- Industry-leading two-year limited warranty

## WorkForce Pro GT-S50/GT-S80 | Page Scanners

The GT-S50/GT-S80 scanners are ideal for commercial lockbox and page scanning applications and feature high-speed, advanced scanning technology.

- Ideal for commercial lockbox applications
- Scan speeds from 25 to 40 ppm; duplex in one pass
- 1400 to 1800 sheets-per-day cycle
- Automatic document feeders with 75-sheet capacity
- Sleek, compact, space-saving designs

## Epson OmniLink™ solutions. Mobile. Smart. Connected.

Epson's OmniLink smart solutions, featuring Epson's industry-leading POS printers with built-in intelligence, offer open platform mobility, peripheral connectivity, PC computing power and more for a broad range of applications—all in a small footprint.

### OmniLink i-Series

---

Epson's OmniLink i-Series is designed to support mobile POS, web-printing from any mobile device, cloud services and information display applications.

- Printer with retail-hardened PC
- Ethernet, optional Wireless-N connectivity
- Web-based printing from virtually any mobile device
- Add cloud services without need for legacy POS integration
- 4 USB ports for peripherals and video output
- Print speeds up to 12 inches/s (300mm/s)
- Paper-saving features reduce paper usage up to 30%

### OmniLink DT-Series

---

Epson's OmniLink DT-Series can support flexible POS configurations with web-based printing, cloud services, information displays, kiosks, peripheral connectivity, thin client and web-based applications.

- Printer with retail-hardened PC
- POSReady 7 or Linux OS
- Ethernet, optional Wireless-N connectivity
- Includes multiple USB ports and a built-in VGA for POS peripheral connectivity
- Mobile POS supports web-based printing from any mobile device
- Intel® Atom™ processor supports a variety of thin client or Web POS configurations
- Print speeds up to 12 inches/s (300mm/s)
- Paper-saving features reduce paper usage up to 30%

# Epson's best-selling serial impact printers get the job done.

Epson serial impact printers are designed for the real-world demands of high-volume back office applications. Our 9-pin printers deliver exceptional speed and reliability together with the best combination of features in their class. All of which adds up to increased productivity and lower cost of ownership.

## **FX-890** | 9-Pin, 80 Column Serial Impact Printer

The 9-pin, 80 column FX-890 is the fastest in its class and offers the speed and durability required for high-volume printing of multi-part forms and more.

- Fastest, most reliable printer in its class
- Four paper paths for superior paper handling
- Prints single sheets and up to 7-part forms
- Three-year warranty including print head
- Easy system integration

## **FX-2190** | 9-Pin, 132 Column Serial Impact Printer

Packed with speed, features and unmatched reliability, the rugged 9-pin, 132 column FX-2190 is a workhorse for back office printing applications.

- Fastest printer in its class
- Prints single sheets and up to 7-part forms
- Wide range of connectivity options
- Advanced paper handling capabilities
- Three-year warranty including print head

## **DFX-9000** | 9-Pin, 136 Column Serial Impact Printer

The DFX-9000 is a high-speed, high-volume 9-pin, 136 column serial impact printer for back office printing needs including spreadsheets, reports and more.

- Durable 9-pin printer with an MTBF of 20,000 hours
- 40% faster than any other printer in its class
- Two standard paper paths for dual paper sources
- Prints wide-format reports and up to 10-part forms
- Supports standard Parallel, Serial and USB interfaces

# Epson's Connect-It™ family of interfaces.

With Epson's wide range of Connect-It interfaces you can get all the advantages of Epson's speed, performance and advanced printer features for your POS system.

## Serial RS-232 Interface

---

Epson's Serial Connect-It interfaces offer a wide variety of options for serial connectivity including a large buffer module and an annunciator module.

## Parallel Interface

---

This module uses a standard Centronics 36-pin connector to connect to the parallel port on the host system. This interface is IEEE-1284 compliant.

## USB Interface

---

When increased port capacity and speed count, depend on Epson's USB Connect-It module for an outstanding yet simple solution.

## Ethernet Interface

---

Epson's Ethernet interface provides a cost-effective solution for establishing communications between host systems and Epson POS printers.

## 802.11n Wireless Interface

---

Epson's Connect-It 802.11n wireless interface enables remote printing via wireless LAN communication.

## Bluetooth® 2.1 + EDR Wireless Interface

---

Epson's Connect-It Bluetooth 2.1 + EDR Wireless Interface enables remote printing at distances up to 33 feet (10m).

# Industry-leading service programs from Epson.

When you choose Epson, you get the world-class service you'd expect from a leader in financial solutions. Our comprehensive selection of service programs includes a complete range of flexible, cost-effective service options, backed by Epson's large network of authorized service providers.

## ExpressCare<sup>SM</sup> Service Program

---

### ExtendedCare<sup>SM</sup>

- Economically-priced extended warranties
- Covered repairs are free of charge
- Repairs done in three business days
- Service provided by Epson Customer Care Centers

### Spare-In-The-Air<sup>®</sup>

- Fast overnight replacement via express shipping
- Extremely cost-effective solution for 24 service
- Service representatives on call 7:00 am to 5:00 pm Monday through Friday
- Available for most Epson products

### Fast Turn Depot<sup>®</sup>

- Components are tested upon receipt and necessary service and repair is performed
- Warranty repairs are performed free of charge
- Products are typically returned in just 2–3 days
- Service provided by Epson Customer Care Centers

## Authorized Service Provider Program

---

Epson's base of nationwide authorized service providers—Epson Customer Care Centers—are available to offer timely and cost-effective support solutions for Epson products. In-warranty and out-of-warranty product support, equipment diagnostics and spare parts are available.

## Epson and the Environment.

Epson has a long history of achievements in protecting the environment and is now one of the leading environmental companies in the world. Our products are built with exceptional energy-saving designs, recyclability and long life spans using strict manufacturing processes. This means our products offer smaller environmental footprints and more savings for you.

### Recent Environmental Achievements

- Chosen for Dow Jones Sustainability World Index
- All products compliant with RoHS standards
- ISO 14001 certified manufacturing facilities
- Products designed with lowest possible power requirements
- First company in the world to eliminate all CFCs from its manufacturing
- 100% green purchasing worldwide since 2004
- Achieved 99% halogen-free and 99% PVC-free packaging in 2006
- ENERGY STAR Partner. SmartWay Transport Partner
- Recipient of numerous national and international environmental awards

“All Epson products worldwide are compliant with RoHS standards.”
