

# **MOTOROLA DS9208**

#### OMNIDIRECTIONAL HANDS-FREE PRESENTATION IMAGER

# AFFORDABLE NEXT GENERATION SCANNING TECHNOLOGY FOR TODAY'S MOBILE WORLD

Whether you need to scan printed bar codes on paper labels or mobile bar codes on the screen of a mobile phone, with the Motorola DS9208, you'll be ready. You get the versatility to scan any 1D or 2D bar code — from the printed labels in retail that identify product and pricing at the register to mobile coupons, mobile gift and loyalty cards, boarding passes and even theater tickets. And the DS9208 provides all the features you need to keep your workers productive: industry-leading scanning speed; true point-and-shoot scanning simplicity — no need to align bar code and scanner; and hands-free and handheld flexibility.

#### BOOST CUSTOMER SERVICE, LOYALTY AND REVENUES WITH MOBILE BAR CODES

Convenience is driving your customers to store boarding passes, event tickets, mobile gift and loyalty cards as well as mobile coupons on their cell phones, where they are always available and easy to find — unlike their physical counterparts. But if you can't scan the mobile bar codes, convenience turns into a hassle that could

result in a lost customer. With the DS9208, you are ready to complete the mobile bar code transaction chain, able to scan virtually any mobile bar code on any type of display — protecting service levels and customer loyalty.

#### A 'GO ANYWHERE' DESIGN AND TINY FOOTPRINT

Maybe your retail store has a trendy décor. Or maybe your counter space is extremely limited. The DS9208 sports a new sleek contemporary design that is at home in either environment. And with the most compact footprint in this class, the DS9208 can fit in the most space constrained areas — from the POS in a boutique to the ticket window at a train station.

# A SMART INVESTMENT AND A LOW TOTAL COST OF OWNERSHIP (TCO)

The DS9208 not only helps you make money, it helps you save money. The device is so intuitive that training — and training-related costs — are virtually eliminated. Right out of the box, the DS9208 can read the most common 1D and 2D bar codes on a wide variety of surfaces — from paper labels to cell phone displays. Integrated Electronic Article Surveillance (EAS) functionality eliminates the need to purchase and

#### **FEATURES**

#### Scans 1D, 2D and PDF417 bar codes on paper, mobile phones and computer displays

Scan virtually any bar code on any medium; supports the technology your customers are embracing — mobile bar codes

#### **New small footprint**

Most compact device in its class, fits in the most space constrained areas, yet offers flexibility of a much larger scanner — the large high-mounted exit window enables scanning of even taller items

#### New sleek design

Perfect in the most design conscious environments

### Handheld and hands-free modes

Dual mode functionality saves time; keeps lines moving and minimizes wait times; eliminates the need to lift heavy items, reducing the opportunity for injury

#### **Picklist mode**

Select and scan a single bar code from a bar code menu or "picklist" — ideal for items that are too small for bar code labels such as nuts and bolts in a hardware store to tiny cosmetic brushes

### Driver's license parsing (optional)

Captures the information you specify from driver's licenses to enable fast auto-population of loyalty and credit card applications, increasing enrollment

#### Multi-code mode

Allows simultaneous scanning of a group of bar codes and reports only the selected bar code(s) in a pre-selected order.

## Industry-first spherical exit window

Improves scanning performance by minimizing stray light and reducing reflections to the imaging sensor

1-D

#### Dual LEDs plus programmable beeper volume, frequency and duration

Protects productivity in noisy environments, such as theaters, airports and restaurants by providing both visual and audible confirmation of successful scans; convenient side trigger allows users to adjust beeper volume on-the fly

manage a standalone EAS system. Simplify and reduce the cost of managing your DS9208 scanners with two Motorola scanner management tools, RSM and 123Scan<sup>2</sup>. And with our unique support program,

Service from the Start Advance Exchange Support, you can count on next-business-day device replacement — no questions asked — providing the uptime you need to keep business running smoothly.

Environmental	Compliant with RoHS Directive 2002/95/EC
OPTIONS	
Electronic Article Surveillance	Compatible with Checkpoint EAS deactivation systems
Accessories	Wall mount bracket; locking mount bracket
WARRANTY	
DS9208 is warranted for a period of 3 year	of Motorola's hardware warranty statement, the diagainst defects in workmanship and materials is from the date of shipment. For the complete product warranty statement, go to: a.com/warranty

Service from the Start Advance

Exchange Support

**RECOMMENDED SERVICES** 

Support Services

## Omnidirectional scanning

Eliminates the need to align bar code and scanner

### Lightweight ergonomic 'sure grip' design

A secure grip helps prevent drops when utilized in handheld mode

### Supports all common interfaces

Easy integration with your existing technology environment; easily migrate to new hosts

## 5 ft./1.5 m drop spec and recessed exit window

Increased durability: can endure drops; prevents nicks and scratches on the exit window that could degrade performance

# Integrated EAS support (optional)

Eliminates the need to purchase and maintain an additional system at the register; simplifies the checkout processes; eliminates missed tags, erroneous alarms and embarrassed customers

## Integrated adjustable stand

Eliminates the need to purchase and manage separate accessories

# Compatible with 123Scan<sup>2</sup> and Remote Scanner Management (RSM)

Reduces management time and cost, from initial configuration to day-to-day management
