

World leader in securing payment devices.

Data theft happens and criminals want cardholder data from your customers. If your customer's data is sacrificed, they may bring their business elsewhere, thereby decreasing your sales and lowering your profits. You can build confidence with your customers by securing your payment device with a payment terminal stand from ENS.

ENS payment terminal stands give you:

COMPATIBILITY

ENS partners with the largest payment device companies in the world to become the leader in securing payment devices. Our products pair with most payment devices manufactured by: Equinox, Ingenico, MagTek, Pax, VeriFone and many more.

HELPS MEET COMPLIANCE

By securing your payment device, it will help meet PCI compliance standard 9.9. Additionally, ENS payment terminal stands feature the ability to flip the screen forward for ADA requirements and a 180° swivel range.

SECURITY OPTIONS

Mounting your payment device protects against tampering and theft. Locking stands, custom security hardware, magnetic security features and data port covering plates can all be utilized to protect you and your customer's data.

CABLE MANAGEMENT

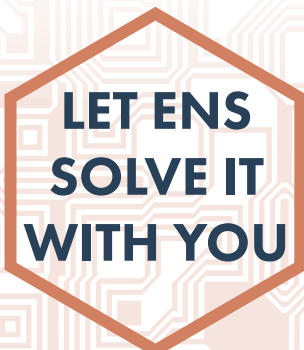

ENS payment terminal stands come with cable clips and a center-hole base to neatly route and organize power and data cables.

STURDY, ROBUST DESIGN

ENS payment terminal stands are made with metal materials and designed with a precise fit to the device to help extend the life of the payment device.

SUPERIOR QUALITY

ENS products are manufactured in the USA and tested to withstand the toughest environmental conditions.

Can't find exactly what you're looking for? Trust ENS to solve your most difficult technology mounting problem. When you partner with our team of experts we work with you through our simple four step process to **Discover, Design, Develop and Deliver** a solution for you on time and within your budget. With more than 100 years of combined engineering expertise, we will deliver the right solution that fits your business needs.
