

With easy operation and a seamless conversion process, SL220 provides convenience and significantly boosts your work efficiency. Whether you are in warehousing, retail, or any other industry, this user-friendly solution allows you to capture barcodes swiftly and accurately, streamlining your workflow.

Superior 2D Scanning Performance

SL220 supports a wide variety of barcode types and offers an impressive scanning distance of up to 10 meters. It supports pick list function, ensuring precise scanning without the risk of mistakenly reading other barcodes within the scanning range. Additionally, SL220 maintains excellent scanning performance even in low-light environments, ensuring reliable results every time.

Support PD fast charge to recharge both SL220 & iPhone/iPad simultaneously

With this innovative feature, significantly reducing the overall charging time for both devices. It ensures that you can quickly power up the iOS devices and the SL220 sled scanner in a fraction of the time, allowing you to get back to work swiftly and optimize your productivity.

Durable and Reliable Design

It enhances the industrial durable protection with features including IP65 dustproof, waterproof and 1.2 meters resistant to fall protection.

Support Both Lightning and USB-C Connectors (Coming Soon)

The SL220 series offers two distinct models, each tailored for compatibility with either Lightning or USB-C connectors. This design ensures seamless integration with a wide range of iPhones and iPads, catering to diverse user needs. By providing separate versions for different connector types, the SL220 series enhances operational flexibility and efficiency for professionals relying on various Apple devices in their daily workflows.

The Lightning connector is compatible with iPhone 7, 8, XR, XS, 11, 12, 13, 14, 14 Plus and SE, as well as iPad 7th, 8th, 9th, Pro 10.5-inch, Air 3rd, and Mini 5th, while the USB-C connector is compatible with the iPhone 15, as well as iPad 10th and Mini 6th.

Separate design with OtterBox uniVERSE series

This unique feature allows users to select different OtterBox uniVERSE cases that are specifically tailored to their iPhone and iPad models. With this flexibility, users can choose the perfect combination of SL220 and OtterBox uniVERSE, ensuring a seamless integration that meets their device requirements.

Features

- · Premier barcode reading distance: up to 10 M
- Support Pick List function to optimize work efficiency
- Support PD charging to fully charge SL220 and iPhone within 2 hours (actual charging time will vary with different iPhone models)
- IP65 dustproof, waterproof and 1.2 meters resistant to fall protection
- Easy to transform iPhone/iPad into an enterprise-grade scanner
- Support both Lightning and USB-C connectors, providing a reliable and convenient connection
